BOERS SUSTAIN SEVERE DEFEAT

Fifteen Hundred Burghers Under Delary and Kemp Are Routed.

HAD HEAVY LOSSES

Running Fight in the Brush with the British Under Cookson and Keir.

MANY PEACE RUMORS

London, April 4.—Lord Kitchener today reports a heavy engagement near Drelkulli in the western Transvaal, on March 31, in which fifteen hundred Boers under Delary and Kemp were completely routed by the British force under Generals Cookson and Keir. The dispatch reads:

"Our forces were reconnoitering toward the river when they struck gun tracks. They caught up with the Boers and carried on a running fight with them for eight miles through the brush. On emerging in the open country the British were advanced upon by large Boer reinforcement who attacked our flanks, forcing them hastily to entrench their position. The fighting ensued at close quarter till the enemy were repulsed on all sides. Delary and Kemp and other Boer leaders vainly attempted to rally their men who retreated northward and to the south, suffering heavy losses. Our casualties are also severe."

Many Rumors of Peace

There are many rumors respecting peace negotiations, but there is little wheat among the chaff. Possibly Mr. Kuyper, the Dutch Premier, has sought to interest the Germans in the Boer cause, but presumably has not succeeded in doing so. There is unusual activity among the Boer agents on the continent, and, while they are not overacting their parts, they are not without influence. Steyn is for the moment the most important man, and Schalkhuis is probably in communication with him.

Funeral of Cecil Rhodes

Cape Town, April 4.—The funeral of Cecil Rhodes, the most historic ever known in South Africa, was held yesterday afternoon amid every manifestation of public grief. The display of mourning emblems was only exceeded on the occasion of the death of Queen Victoria.

In them ornate the body of Mr. Rhodes lay in state Parliament House and thousands stood in line waiting their turn to pass the coffin. In the afternoon the corpse was removed to the Cathedral.

The streets were lined with troops who saluted the passing cortège. The pall bearers were Dr. Jameson, Sir John Gordon Spragg, the Premier of Cape Colony, and six others.

Natives Deeply Interested

Buluwayo, Matabeleland, April 3.—The natives are arriving here in great numbers, preparatory to witnessing Cecil Rhodes' funeral. Three thousand Matabeles will line the last mile of the road to the Matoppos Hills, on the summit of which the remains of Mr. Rhodes are to rest.

The Matabele chiefs are greatly impressed by the fact that the body is to be buried close to the tomb of their big chief, Mosilikatze.

DEMOCRATS TALK OF EX-GOV. PFCK

Widespread Suggestion for the Nomination of the Old Warhorse for Governor.

Milwaukee, April 4.—Ex-Governor George W. Peck may again be the nominee of his party if his friends can bring it about. His nomination is especially being urged in circles where it would naturally be supposed that Mayor Rose would receive support in case he was a candidate. This circumstance reentered yesterday by Mayor Rose that he wished to serve out his term is taken by politicians as a tip that the mayor is sincere in his determination not to stand as a candidate for governor.

The suggestion of ex-Governor Peck's name met with favor among the democrats. The first suggestion of his name came yesterday when the announcement was made that Henry Hase would probably be appointed tax commissioner. This caused considerable surprise among many democrats, who had hoped that the appointment would be given to Mr. Peck.

This talk brought out the suggestion that he had been spoken of as a possible nominee for governor and the possibility of his being a candidate was peddled about the city hall. Mayor Rose yesterday plainly intimated that he intended to adhere to his statement that he will not be a candidate for the democratic nomination for governor.

Lyon Gage Takes New Postion.

New York, April 4.—Lyman J. Gage, former secretary of the treasury, was elected president of the United States Trust company. He succeeded John A. Stewart, who resigned on account of ill health.

Miss Dora Haviland departed on the morning train for Monroe where she will attend the several sessions of the teachers' conventions.

FARMERS EAGER TO GROW SUGAR BEETS

State Board of Agriculture Will Send Information to All Those Who Will Apply.

Madison, Wis., April 4.—Secretary John M. True of the State Board of Agriculture is receiving letters daily from farmers in various parts of the state asking for information regarding the culture of sugar beets. The largest number of these letters come from farmers in Waukesha and Washington counties who intend to raise beets for the sugar factory at Menomonie Falls. In order to furnish the desired information Secretary True has decided to send out printed copies of the address delivered by A. F. Postel of the Menomonie Falls factory at the February mass meeting of agriculturists, held here under the direction of the State Board of Agriculture. This address, which is entitled "Sugar Beet Culture," contains the information desired by persons intending to engage in the industry. It will be ready for distribution next week and can be had free by application to Secretary True at Madison.

STREET RAILWAY PLAN IN BELOIT

New Company Will Co-Operate with the Interurban Road—Has Good Financial Backing.

Beloit, Wis., April 4.—Local capitalists, joining with H. H. Clough of the interurban railway are preparing papers to ask the council for a franchise to build a street railroad system. Several well-known business men are in the deal and have an abundance of financial backing. The road, if built, will be operated with power from the interurban station.

ROSE FORCES TO HOLD A JUBILEE

Mayor Harrison of Chicago, Will Be Present at the Celebration in Milwaukee Tomorrow.

Milwaukee, Wis., June 4.—Chicago democrats are coming to Milwaukee tomorrow to help Mayor Rose and his followers celebrate last Tuesday's victory. Mayor Harrison will be the guest of honor, although it is given out that Robert E. Burke will be here, and that he will not take a back seat. Milwaukee will also have a chance to see Bathhouse John, the idol of the Milwaukee Democratic aldermen, for he has also promised to add his presence to the festivities. Mayor Rose and Mayor Harrison will exchange compliments from the rostrum of the exposition building, assisted by John F. Donovan and any others either from Milwaukee or Chicago who are qualified to tell the people how an election is won against the best efforts of perfectly organized parties.

BADGER SHOOTERS AMONG HIGH GUNS

Close of the Grand American Handicap Shoot at Kansas City Going on Today.

Kansas City, Mo., April 4.—At the close of the second day of the Grand American handicap the number of wing shots with straight scores had been materially reduced, but W. J. Williamson of Milwaukee and G. V. Dering of Columbus, Wis., are still among the high guns.

Of the 143 who had not missed a bird when the shooting stopped Wednesday eighty-nine dropped out yesterday, leaving fifty-four who still had a straight score. When the shooting stopped last evening there were fifty-six men who had shot twelve rounds, and among them were ten shooters with a straight score. What is believed will be the last day's shoot in the grand handicap, beginning under fine weather conditions this morning.

Young Goelot in \$12,000,000.

New York, April 4.—Because of the death of his sister, Beatrice Goelot, last February, young Robert W. Goelot finds that his inheritance under the will of his father is doubled. George G. Dewitt and Mrs. Harriette W. Goelot, as executors, have received about \$250,000 each in commissions for the work so far accomplished in settling the estate.

Dying of Dislocated Heart.

La Porte, Ind., April 4.—Isaac Disbong, a farmer of this vicinity, is dying of a dislocated heart. Three weeks ago, while attempting to steer a wagon down an incline, he was thrown from the vehicle. The fall was of such force that his heart moved four inches out of place. Inflammation has set in and the physicians have abandoned hope of saving his life.

Death Follows Dog's bite.

Chicago, April 4.—After suffering intensely from hydrocephalus, Silvina Nagle, 57 years old, died at the county hospital. March 2 Miss Nagle went into the yard in the rear of her home, when a stray dog ran through an open gate and bit her in the right hand. The flesh was lacerated severely and a doctor cauterized the wound.

Mrs. F. W. Christian of Oshkosh is visiting her mother, Mrs. Amos Crall on North Jackson street.

FIRST TAP OF CAMPAIGN DRUM

Rules and Regulations Relating to the Republican State Gathering.

A BIG CONVENTION

Number of Delegates This Year Will Reach 1,059—Rock County Has 33.

APPLY RULE OF 1894

As the time approaches for the calling of the different republican conventions, information concerning the number of delegates, the basis of representation and the number each district and county is entitled to is interesting. At the republican state convention held in the city of Milwaukee, July 25 and 26, 1894, the following resolution was adopted:

One Delegate for Each 250 Voters

"Resolved that the basis of representation to republican state conventions shall be one delegate for each 250 republican voters cast at the last preceding presidential election, and one for each major fraction thereof; and that in countries having more than one assembly district, the unit basis shall be the assembly district; that in all other cases the county shall be the unit, except in Milwaukee county.

"Resolved, that hereafter all state conventions shall be called on a notice of not less than eight weeks. All county conventions to elect delegates to state conventions, on a notice of not less than four weeks. All town or ward caucuses as primaries to a state convention, on a notice of not less than ten days, and that notice of the meeting of such conventions or caucuses shall be given in the usual manner."

Will Include 1,059 Delegates

This rule, adopted by the convention of 1894, fixing the representation upon the presidential vote, has governed the selection of delegates in every state convention held since. The unit of representation is the assembly district, in counties containing more than one assembly district, except in Milwaukee county. In all other districts the county is the unit. The provision that eight weeks' notice must be given prior to the holding of a state convention was followed by the republican state central committee in calling the conventions of 1896, 1898 and 1900. The convention of 1900 was composed of 1,057 delegates and under the resolution adopted in 1894 the next state convention will number 1,059 delegates. This is a loss of eight delegates in the membership of the convention since 1900, and shows that the total republican vote was less in 1900 than it was in 1896.

Under this apportionment the county of Rock is given thirty-three delegates as follows: First district, 9; Second district, 11; Third district, 13.

By Congressional Districts

Upon the above basis of representation the several congressional districts will be entitled to delegates in the next republican state convention as follows:

Dist.	Delegates	Dist.	Delegates
1st	112	4th	100
2nd	91	5th	81
3rd	103	6th	98
4th	103	7th	118
5th	103	8th	103
6th	93	Total	1,059
7th	103		

At a meeting of the Republican state central committee, held on Aug. 7, 1894, the committee recommended that the basis of representation in all the conventions should be the Republican vote cast in each precinct at the last gubernatorial election. This recommendation has never been voted on, and as a result the votes cast at the presidential election will govern as the basis of representation.

QUICK WORK IN MURDER TRIAL

Philadelphia Murder Pleads Guilty and Await Court's Sentence.

Philadelphia, Pa., April 4.—Events rapidly carried William Harmon Lane, the colored murderer of Mrs. Ed Gordon and her daughter Madeline, toward the death penalty for his crimes. Speedy justice is being meted out to him as an example to others.

Three hours after the crime was committed he was a prisoner, forty-eight hours after his arrest all that remained between him and the gallows was the official decision of course as to the degree of crime. It is expected that the sentence of murder in the first degree will be passed on him before court adjourns this afternoon and as soon as the papers can be prepared, it is said, a special messenger will be sent to Harrisburg to ask the governor to sign the death warrant without delay.

Lane was indicted on two bills for the murder of Mrs. Ella Gordon and Madeline Gordon. He pleaded guilty when arraigned and his voice did not falter.

New Outlet for Sudan Trade.

Cairo, April 4.—Sir F. W. Wrigate, governor-general of the Sudan, has authorized the construction of a railway between Berber and Suakin, to provide an outlet for the trade of the Sudan.

MONROE STANDS WITH OPEN ARMS

Warm Reception Today for the Southern Wisconsin Teachers' Association.

PROGRAM IS GOOD

It Promises To Be the Most Profitable Meeting in History of Organization.

SOCIAL TIME TONIGHT

Monroe, Wis., April 4.—This is a great day for Monroe. Since early morning the members of the Wisconsin Teachers' Association have been pouring into town from all directions and it was estimated at noon that over 500 were on the ground. From two to three hundred more will arrive this afternoon and evening.

One hundred guides were on hand to meet all trains and escorted the arrivals to their stopping places or the general headquarters at Turner Hall. The various sections have the following headquarters. High school section at the high school building, grammar school section at Well's opera house, primary school section at Turner hall, school board section at the court house.

President Roosevelt of Redpath arrived here this morning. He states that he majority of those expected will be here this afternoon and Saturday. The convention bids fair to be the largest and most profitable in the history of the organization. Those who have been connected with the association more or less during the past ten years have pronounced the program one of the best ever prepared for a meeting of the association.

No energy has been spared on the part of the officers to make this session an educational revival.

The opening session began this morning with an attendance of 500. The special from Janesville which arrived at 9:15 brought over 200 teachers. Platteville, Dodgeville, Mineral Point, Darlington, Shullsburg, Brodhead, Madison and many other cities sent large delegations.

The notable events this morning were lectures by Julia Lathrop of Hull house, Chicago, who spoke on "The Public Schools and Democracy." Senator H. C. Morton, Assemblyman E. A. Williams and E. E. Burns, who spoke on the "State and Public Schools."

A portion of the afternoon will be devoted to sectional meetings. At 4:30 Charles W. Seymour will deliver a lecture on the "Passing of the Spaniards." In the evening at Turner hall Elbert Hubbard of East Aurora, N. Y., will speak. Every seat in the house has been reserved for this occasion. The day's programme will be brought to a close by a reception at the new armory given by the citizens of Monroe to the visiting teachers. Mr. Rossman states that the interest and enthusiasm shown by the local committee on arrangements is most satisfactory.

GROCERS TO DEAL WITH LEGISLATORS

Will Urge New Laws for Benefit of the Trade—New Officers Elected at La Crosse.

La Crosse, Wis., April 4.—After a heated contest between Madison, West Superior, Eau Claire and Manitowoc, Madison was chosen by the Wisconsin Retail Grocers' association which closed its convention here last evening, as the next convention city. The convention will be held there in January, 1903.

The purpose of meeting in Madison is to be in the ground floor when the legislature is in session in order to urge the lawmakers to consider several important questions, among which is a proposed law for garnishment. Under the present law persons drawing \$60 a month cannot be garnished for less than three months.

Thus the grocers are able to collect small debts. Editor Deming of the Trade Press, Chicago, delivered a short address. Resolutions were adopted favoring the enactment of a law curtailing peddling in Milwaukee; to secure legislation on garnishment; also asking that the pending pure food laws be passed. Delegates were banqueted at the Germania hall in the evening. Officers elected were:

President, R. Schmidt, Milwaukee; first vice president, J. B. Murry, La Crosse; second vice president, Robert Smith, Eau Claire; secretary, John Mulder, La Crosse; treasurer, A. Lichtenberg, Oshkosh; directors, J. P. of Racine, F. E. Findlay of Madison, G. M. Thompson of Viroqua, P. J. Savage of Milwaukee, H. M. Mulholland of Manitowoc, L. M. Hammer of Galesville, S. C. Shannon of Appleton, J. C. Poser of Merrill and J. C. Wilcox of Menomonie.

Sugar Trust Gets Judgment.

New York, April 4.—Judge LaCombe has handed down a decision awarding the American Sugar Refining company a judgment against Collector Bidwell for \$61,000.21, with interest from Oct. 27, 1900. This sum was paid on that day for duties on raw sugar from our new insular possessions, and under the recent decision of the United States supreme court the exacting of the duty was illegal.

Perfume for Indian Wines.

Greens and Roman wines were perfumed, generally by steeping the leaves of roses or violets in the liquor until it had acquired the odor of the flowers.

EXCLUSION BILL NEXT ON PROGRAM

Senate Steering Committee is Deciding on Disposition of the Vexed Chinese Matter.

Washington, April 4.—A meeting of the senate steering committee will be held in a few days to decide upon a course of legislation for the disposition of the Chinese exclusion bill. It is believed the Philippines civil government bill will be the first measure taken up taking precedence over the Nicaragua canal bill, which many senators think should go over until the next session on account of many changes that have occurred in the canal situation.

It is given out in rather a convincing way that Dr. T. L. Flood of Erie, Pa., will be appointed commissioner of pensions to succeed Evans.

JOE CANTILLION IN NATIONAL LEAGUE

Janesville Man Gets a Position as Umpire in the Major Base Ball Organization.

The National Base Ball League is again in trouble. Yesterday the directors had a meeting in New York and the resignation of A. G. Spaulding as president was accepted and W. C. Temple of Pittsburg was elected. This was supposed to be a settlement of the war, but now Temple has refused to accept the place and again they are all at sea.

Chairman Young announced the following appointments of umpires for the coming season: Robert Emile, "Hank" O'Day, Tom Brown and Joseph Cantillon.

In Joe Cantillon, a former Janesville boy, the National League has secured one of the few really great umpires in the business, and incidentally struck a blow at the American League. For years Cantillon has been one of the star men on Ben Johnson's staff of umpires. He is absolutely fearless and at all times master of the situation. What is more, he is popular with both the players and the public.

The best proof of his ability as an umpire was expressed two days ago by Comiskey in a few tersely worded sentences:

"When it comes to umpires," said the master of the White Sox, "Joe Cantillon is in a class by himself, and the American League can't afford to lose him. I consider him the best man in the business today, bar none. A good umpire has a whole lot to do with making a good ball game."

Cantillon, who lives in Chicago, said last night: "I gave Ben Johnson every opportunity to talk business with me, but I have heard nothing from him. The National League people offered me big money and to-day they accepted my terms by telegraph. That is all there is to it, although to tell you the truth, I am sorry to leave the American."

Leaf Tobacco Notes.

The condition of the local tobacco market is very similar to that of last week. About the same number of buyers are riding and each is buying some tobacco, but none very extensively. As the warm weather approaches the farmers become somewhat anxious to sell and make concessions to the buyer rather than assert themselves or hold a few months.

Buyers are carefully going over every growing section searching out desirable lots and a considerable quantity has been purchased in the aggregate. Agents of the American Tobacco Co. are at work and have bought considerable, lately. Prices range from 4 to 8 cents, with an average below 7 cents.

In cured leaf transactions have been confined to the sale of the usual number of small lots.

The farmers are preparing for the new crop and a few have sown their seed. The weather is too cold and dry for germination, and seed is just as well out of the round.

Ohio

Buying of the new Zimmer Spanish and seed leaf is now quite general and crops in the hands of the farmers are rapidly becoming scarcer. The general price for Zimmer remains at 10 cents, with an occasional report of a little higher figure for an exceptionally fine crop.

Seed leaf is still commanding about seven cents through, and taken as a whole farmers have no reason to complain of lack of profit in tobacco raising. There has been such a demand for leaf in this section that buyers have been accepting everything offered without a demur.

New York

The advent of pleasant weather has conduced to considerable activity in the tobacco trade in this section. Deliveries have increased considerably.

and warehouses are now working with might and main. Buyers, too, are more numerous and riding has recommenced in earnest. Sales naturally are more numerous than in several weeks, and while farmers, as usual, utter their constitutional complaints about prices, the general situation is as favorable as can be expected under the circumstances.

The leaf in this section was undoubtedly damaged to a considerable extent, and that is bringing all that it is worth admiring by competent judges. Asserted leaf, of course, commands a higher price than goods in bundle, bringing all the way from 7 to 10 cents, while unassorted ranges from the lower figure down to as low as 3 cents, the price being regulated entirely on the estimated amount of damage.

Connecticut Valley

Sales of the 1901 tobacco crop in this section continue, but only to a limited extent, and at prices which neither the buyer nor the seller care to make known. As a matter of fact most of the good tobacco has been purchased and the crops remaining in the hands of the growers are believed to consist mainly of leaf that has not escaped the serious damage reported earlier in the season.

Under the circumstances it is not surprising that packers should purchase only when prices are made low enough to offer a reasonable opportunity for profit, and it is also natural for the grower to experience considerable disappointment over the small returns for his leaf upon which he probably expended as much labor as those whose crop turned out more favorably. Every year the same thing happens to a greater or less extent, but this year the situation was worse than usual and the market became considerably demoralized.—U. S. Tobacco Journal.

WOODMEN HOLD A BENEFIT DANCE

Program Before the Ball Given by Griffin's Orchestra, Was Very Fine and Enjoyed by All.

The local camp of the M. W. A. were entirely successful last evening in their benefit dance held for E. H. Luddington. The camp expects to have in the neighborhood of one hundred dollars to turn over to their afflicted brother.

The program given before the dance by Griffin's orchestra was very fine and was thoroughly enjoyed by the large audience. The orchestra was assisted by Miss Helen Black, Impersonator. The orchestra was very fine, especially commendable being the work of Donatz Gioscio, the harpist, whose solos were encored time and time again. The violinist, Mr. Pasquale Scappa was also a good soloist and his numbers were some of the best on the program.

Miss Helen Black, the impersonator was splendid, and her appearance

each time was the cause for much applause. She is highly talented and her impersonations of humor, pathos and originality, are of such a character that makes one believe that she is actually living them.

After the concert program was finished the floor was cleared and those present enjoyed themselves until the early hours. The music was furnished by the orchestra and was excellent.

Parents' Responsibility Great

It is the right of every child to be well born, and to the parents it must look for health and happiness. How inconceivably great is the parents' responsibility, and how important that no taint of disease is left in the blood to be transmitted to the helpless child, entailing the most pitiable suffering, and marking its little body with offensive sores and eruptions, eatarrh of the nose and throat, weak eyes, glandular swellings, brittle bones, white swelling and deformity.

How can parents look upon such little sufferers and not reproach themselves for bringing so much misery into the world? If you have any disease lurking in your system, how can you expect well developed, healthy children? Cleanse your own blood and build up your health, and you have not only enlarged your capacity for the enjoyment of the pleasures of life, but have discharged a duty all parents owe to posterity, and made mankind healthier and happier.

There is no remedy that so surely reaches deep-seated, stubborn blood

troubles as S. S. S. It searches out even hereditary poisons, and removes every taint from the blood, and builds up the general health. If weaklings are growing up around you, right the wrong by putting them on a course of S. S. S. at once. It is a purely vegetable medicine, harmless in its effects, and can be taken by both old and young without fear of any bad results.

Write us about your case, and let our physicians advise and help you.

This will cost you nothing, and we will also send our book on blood and skin diseases.

DISLOYALTY.

The result of the election in Milwaukee and the tactics adopted at some of the towns around the state, indicate that if the governor is defeated, for re-nomination, that the same spirit of disloyalty will be displayed, that was so largely in evidence, during the last Scofield campaign. It is unfortunate for the party that it is rent with strife, but more unfortunate that one of the contending elements is not satisfied to abide by the will of the majority. When the convention adjourned in Milwaukee, Major Anson was endorsed by unanimous vote. He had a right to expect that the republicans of the city would ratify the action of the convention, but this was not to be. The dog in the manger spirit, so prominent in the public life of the chief executive, was soon manifest, and as the campaign progressed, it was apparent that the LaFollette wing of the party had gone over to the democratic camp.

The state campaign, as mapped out and conducted in various parts of the state, commences with a democratic alliance. The first invitation was issued in the form of a circular letter and distributed by state employees. Democrats circulated LaFollette petitions, and signed them freely. They will be invited to pack republican primaries, and as a last resort, if the faction fail of success, they have good reason to believe, that their preliminary work will be rewarded by substantial support at the polls for a democratic governor. If the election in Milwaukee means anything, that is what it means. If there is any doubt about it, the doubt is dispelled by the history of the last Scofield campaign.

The republican party is confronted with conditions, that are not theories. It has connected with it a faction that is disloyal. Just what the strength of this faction is, may not be fully determined. It was 1,500 strong in Dane County two years ago and numbered about 14,000 throughout the state.

The Gazette does not believe that this disloyal element is any more numerous today, than it was when it stood up to be counted the last time. There are many LaFollette men, who are loyal to the republican party. Men who believe that the majority should rule and who refuse to prostitute their loyalty to gratify spite, or the whim of an official. While the party is confronted with these conditions, it has no occasion for alarm. Senator Whitehead will be the nominee of the convention, because a majority of the delegates, representing the dominant sentiment of the state, will be conservative. He will be elected, because of a loyal constituency who believe in the man and the principle he represents.

IMPORTS AND VALUES.
The Bureau of statistics at Washington, has just compiled some interesting statistics on imports and values, covering a period of 8 months, ending March 1st, 1902, as compared with the same period for the previous year. Raw cotton doubled in volume and is represented by 63,000,000 pounds, valued at seven and one-half million dollars, or about \$3,000,000 more than the previous year. Importations of India rubber were about the same as the year before, 33,000,000 pounds, but a decline of 33 per cent. in value reduced the price to \$16,325,000.

Raw silk has also declined in price. The 8,000,000 pounds imported sold for about \$30,000,000. The import of tin, used for the manufacture of the plate, has maintained its price, while the volume has increased ten per cent., representing 47,000,000 pounds. Tobacco shows a slight increase in value, while wool has declined triflingly. Imports in all important lines show an increase in volume, indicating that while our exports have largely increased, that we are also liberal buyers.

These trade conditions speak volumes for the country. They indicate in the first place, that the nation is in a prosperous condition, and that this prosperity is recognized in all parts of the world. If Congress would grasp the situation and adopt the reciprocal policy, suggested by the late president McKinley, both exports and imports would increase.

It will be noticed that most of the foreign goods mentioned, have declined in price, while the market on this side has been firm, nad with an upward tendency.

This can mean but one thing, that is overproduction abroad and a shortage at home. While this simple statement may seem insignificant, it is full of import. Many of the factories of the old world today are idle and many more are barely making expenses. An army of skilled workers are without employment, and low wages are the rule and not the exception.

Conditions are reversed in America. Almost every industry is crowded to its fullest capacity. If men are idle, it is from choice. Wages are good, and poverty, unless caused by misfortune is unknown. The army of tramps, which infested the land a few years ago, has faded away. Even

this class of easy going citizens, has been fired with ambition, and the contagion has absorbed the American tramp in large degree.

It is not at all surprising that the old world, sends to our shores every year about one-half a million representatives. Neither is it surprising that they soon become citizens of the best land under the sun. The gates of castle garden always swing in.

MORE CIVIL SERVICE FARCE.
Secretary Payne has run up again a proposition that involves civil service reform. His chief clerk is a democrat, and while an efficient man, is naturally not in sympathy with the administration. Mr. Payne felt, as any other man would under the circumstances, that his confidential assistant, the man who handled his correspondence, and was closer to him than any other official, should be a republican, and a man in whom he could place implicit confidence. He made an effort to place his clerk in another department, and put in his place an old time friend, H. H. Rand, of Milwaukee. The civil service commission interfered, claiming that the old clerk was protected, and his rights could not be ignored. Mr. Payne is a man of resources, and so he has appointed Mr. Rand as his private secretary.

This is another case of where the civil service law is a farce. If the post office department is to furnish the best service, and this is expected, the man at the head of it should not be handicapped, by a lot of employees, who are not in accord with his policy. He should have the right to select his own helpers. There are a good many holes in the civil service skimmer, that ought to be plugged up.

The Milwaukee election is a thing of the past, but the lesson of the day will be remembered. It is a satisfaction for the republican party to know, that it has a host of loyal supporters in the Cream City, and it is also a satisfaction to know who its enemies are and just how far they will go when desperate.

Snow bound in April, may not be very romantic, but this experience came to 250 passengers on the Northern Pacific. Attempted suicide, riot and suffering from cold and hunger for four days, gave the experience an air of tragedy in real life.

The house has passed the bill for the improvement of the consular service. This is a move in the right direction. Salaries should be doubled in many cases and men selected who possess the intelligence and ability to represent the best interests of the government.

The Milwaukee Journal surprised its constituency by not charging the defeat of Anson to Senator Whitehead.

Senator Bailey, of Texas, won laurels in his debate against the oleo bill. The senator comes from a stock growing state.

If Mr. Overbeck is planning to return to Madison, and expects to accomplish anything as a legislator, he should put himself in training on something more substantial than ice.

Waukesha by good LaFollette support, succeeded in electing a democratic mayor.

PRESS COMMENT

Marquette Eagle: Instead of suggesting that Senator Spooner endorse Gov. LaFollette for a second term, as a means of ending the factional fight, would it not be more reasonable for him to withdraw from the field in view of the widespread opposition to him within his own party.

Madison Democrat: Mr. Groves' obligation to the State Journal will not cause him to throw many bouquets that way.

Madison Democrat: The great difference between the democrat and the hay market apology was that the former supported Mayor Bull while the latter opposed Mr. Groves. In these columns never so much is an institution against the latter appeared.

Madison Democrat: The official can now go on with its vicious squeezing of the sandbagged insurance companies. It may obtain sustenance in that way even though without local patronage, standing or influence. With such a merciless pull it is able to Vanderbiltize the community.

Hudson Star Times: Honest John M. Whitehead is growing in popularity everywhere throughout Wisconsin as time moves on. The people are coming to realize that he is a man of tact as well as a man of capacity, straightforwardness and thorough familiarity with public affairs. It is the man who can do things agreeably that is wanted. A public rasp is a public nuisance. Whitehead has none of it in his nature.

American Trade: America sells nearly three times as much as she buys; Germany buys \$250,000,000 worth more every year than she sells, while Great Britain last year actually bought twice as much as she sold.

American Trade: The Illinois Steel Company's rail mill at the South Chicago works made a new record for itself week before last. The day turned on Saturday rolled 1,462 tons of steel rails, while the product for the week was 16,322 tons, both being record breakers for the plant.

Oshkosh Northwestern: Because The Madison Journal has elected to support the Democratic candidate for

mayor of that city The LaCrosse Republican and Leader intimates that Editor Wilder needs to be "republicanized."

Advertising Able Handled. The Montgomery (Ala.) Advertiser boasts of a check of \$1,127.61 for one month's advertising for a local firm. This is pretty good in a city of a little over 30,000 people, with a large negro element, who are not great newspaper readers or buyers in the South. What seems especially satisfactory is a letter that accompanied the check from the firm, reproduced and printed on the first page of a recent issue of the paper, stating that no other advertising was used during that time and that the results obtained were far in excess of the most sanguine expectations, declaring entire satisfaction with the investment and complimenting the paper in the highest degree as to the manner in which the advertising was handled. Newspaper advertising has been very frequently proved to be the best in the world, but it would prove a very pleasant surprise to many publishers to receive such an assurance with a check for so large an account.

The manner in which the advertising was handled seems to be the one important fact that impressed the advertiser. There is no doubt in the world that more attention paid by publishers to the manner of handling advertisements would not only result in larger business, but in an increased satisfaction among advertisers, that would grow into a substantial increase in the number and size of advertisements placed.—National Printer-Journalist.

Composition on a Horse.
A father going into his stable one day last week, found his little son astride one of the horses, with a slate and pencil in his hand.

"Why, Harry," he exclaimed, "what are you doing?"

"Writing a composition," was the reply.

"Well, why don't you write in the house?" asked the father.

"Because," answered the little fellow, "the teacher told me to write a composition on a horse."—Our Dumb Animals.

THE ICE-TAX LAW SQUELCHED.
Fortunately the Supreme court of Wisconsin has completely battered down the ice-tax law which passed the last session of the legislature, and which was approved by Gov. LaFollette. We regarded it as a measure of barbarism, and against every dictate of common-sense and progress. Its passage injured the reputation of Wisconsin in every state in the Union. It was not believed our Governor could be so narrow-minded as to sign such a bill. It was really an export tax, and that is forbidden in the constitution. We hope this will be a lesson for Gov. LaFollette to study more carefully the constitutionality of bills which are placed before him for his signature.

God Will Sprinkle Sunshine.
If you see a fellow man with trouble's flag unfurled, An' looking like he didn't have a friend in all the world. Go up and slap him on the back, and holler "How I ye do."

And grasp his hand so warm he'll know he has a friend in you.

Then ax him what's a hurtin' him an' laugh his cares away And tell him the darkest night is just before the day.

Don't talk in graveyard palaver but say it right out loud.

That God will sprinkle sunshine in the trail of every cloud.

This world at best is only a flash of pleasure and of pain.

Some days are bright and shiny and some are all sloshed with rain;

And that's just how it ought to be, for when the clouds roll by We'll know just how to preclude the bright and smiling sky.

So learn to take it as it comes, and sweat at the pores,

Because the Lord's opinion don't coincide with yours;

But always keep rememberin', when cares your path enshrouded.

That God has lots of sunshine to spill behind the cloud.

The volcano Vesuvius rises on the mainland about fifteen miles from the city of Naples, and about five miles from the coast. At least 80,000 people live in the midst of continual danger to which they seem entirely indifferent.

SOPHOMORE CLASS ARE ENTERTAINED

Yesterday afternoon and evening thirty members of the Sophomore class of the High school, accompanied by Misses Genevieve Wilson and Dell Millmore, were cordially entertained by their class-mates, Miss Calla Lacey at the home of her parents, Mr. and Mrs. Lacey of Footville. The trip was made in two carry-alls which left the High school building at half-past two.

After a pleasant hour spent in games an impromptu program was given which was thoroughly enjoyed by all.

Declamations were given by Miss Floy Scofield, Ada Buckmaster, Daisy McLean, Hattie Decker and Ethel Bates in very artistic manner. Miss Daisy McLean responded to many urgent requests by dancing the Highland Fling. Many familiar selections were sung by the entire company. Several musical numbers were given by the Misses Cora Lee Shoemaker, Myrtle Straub, Anna DeForest, Cora Soverill and Calla Lacey and Messrs. Max Millmore and Walter Carle.

Fire on Gold Street

An alarm from box 56 at the corner of Pleasant and Gold streets called the fire department to the residence of David Gillin, 52 Gold street. An unusually hot fire in the stove caused a fire in the chimney, which communicated to the roof. The fire had but a little start and was extinguished with a chemical extinguisher. Fires are of frequent occurrence on these premises and have caused the department many a long run. The house is a very old one and the chimney is in very bad condition, making it little wonder that fires are frequent.

sponded to the invitations sent out, and the evening's entertainment provided by Misses Lola and Mabel, was most unique and pleasing. As the guest came down stairs, each guest was given a card on which was the title of a song and asked to draw a picture representing the song. Much merriment was gained in the drawing of the pictures, some being highly artistic, while others were equally ludicrous.

In due time the cards were collected and left with the judges to ponder over and decide who deserved the prize. Their task was not an easy one, but they finally decided that the honor belonged to Miss Tillie Simle, who represented the song "After the Ball," and she was presented with a pretty bouquet of flowers, while Dr. Keithley received a banana as the consolation prize.

The young people visited Jim to carry some token of remembrance with him, so at this time, Professor Karges, in a few well-chosen words, presented him with a ring. After two flashlight pictures of the merry company were taken, the guests reluctantly bade Jim good-bye, leaving with him many good wishes.

Charges Against the British.

Washington, D. C., April 4.—General Samuel Pearson, who is leading the fight to have the British remount station removed from New Orleans, says he has ample proof that the British not only have a military camp in the United States, but have actually impressed a large number of men engaged in New Orleans under the pretense that they were to act only as muleteers and herdsmen and be given return passage on the next ship. General Pearson says that one way and another the United States has contributed 42,000 men to the British army.

Relatives Meet for First Time.
 Archibald Bard Darragh is a congressman from Michigan and Thomas Robert Bard is a senator from California. They never met until they were introduced to each other recently in Washington. Yet the two men had the same great grandfather, Richard Bard, whose experience during the French and English war of 1756-1760 was thrilling at any romance.

The King's Horses.
 The king of Italy possesses some of the most valuable horses in the world. In his stables are 200 horses, and the double row of stalls forms a regular street. Each animal has its name painted in large white letters above its manger. One of the most valued of all is the horse which was formerly ridden by the late King Humbert.

Robbery by Wholesale.
 A remarkable robbery has been committed at Birds' Island, near Toulon. There was on the island a bed containing 100,000 two-year-old oysters. They were safe at a recent date, but on the proprietor visiting the place again seven days later the whole stock had been cleared without any clue to the robbers being discoverable.
